

KLOVE radio station is a wonderful teaching and listening station for family friendly content. By replacing with an LPFM broadcaster, we may not get the content that we once had nor the great music and news. The service of KLOVE is in the public interest as it deals with the latest news updates, provides family programming not to mention great music for my kids and everyone to enjoy. It would be a disservice to replace KLOVE with something that may not have the ethical or moral values our children so desperately need. Our country needs those values as well and we are listening to the cries of the people that want to bring our country back to it's roots!
